

Day to Night

The morning sun came through my window and woke me up. After a few minutes my mom called out “Justin, breakfast is ready.” I quickly put on my clothes and ran downstairs. Later, the school bus picked me up at the corner.

At school I got to see my friends. In science class we learn about bugs. I like bugs a lot!

In the morning we went outside to play. The sun is high and bright and feels warm. I like playing kickball with my friends. Our team is very good and we win a lot of games.

Later in the day we ate hot dogs for lunch. We also had carrots and they’re okay too. I washed it all down with a glass of milk.

The rest of the day went by fast. After school I played ball with my friends. While we were playing, the sun sank lower in the sky. Later I ate dinner with my family.

The sun is all the way down now and it’s dark outside. I can see the moon outside my window. It is time for bed.

1. What wakes up Justin?
 - a. The cold outside
 - b. The sun shining through the window
 - c. The moon in the sky
2. What game does Justin play at school?
 - a. Kickball
 - b. Tag
 - c. Catch
3. How does Justin get to school?
 - a. He walks
 - b. The school bus
 - c. He rides in a car
4. What did Justin eat for lunch?
 - a. A sandwich
 - b. An apple
 - c. A hot dog
5. When is the sun lower in the sky?
 - a. At breakfast
 - b. At lunchtime
 - c. After school
